

Rohan Badnale

DevOps Engineer | Cloud & AI Enthusiast

Maharashtra, India • +91 9356837429 • rohanbadnale9@gmail.com

EXPERIENCE

Personal Cloud & DevOps Projects - India

2025 - Present

- Hosted and managed Linux servers on AWS EC2 using Apache.
- Built CI/CD workflows using Docker and Jenkins for automation.
- Configured cloud infrastructure and improved deployment performance.
- Worked with Linux commands, SSH, Apache2 and cloud hosting.

AI & Python Development Projects - India

2024 - Present

- Developed AI chatbot applications using Python.
- Built responsive portfolio websites using HTML, CSS and JavaScript.
- Learned automation and scripting using Python and Bash.
- Practiced DSA and problem-solving for technical interviews.

EDUCATION

Swami Vivekanand Mahavidyalaya, Udgir

Bachelor's Degree - Computer Science & Technology

Focused on Cloud Computing, DevOps, Python and Artificial Intelligence.

SKILLS

Cloud & DevOps	Programming	Tools & Platforms
AWS EC2, Linux, Apache	Python, HTML, CSS, JavaScript	Docker, Jenkins, Git
Cloud Computing	DSA & Problem Solving	AI & Automation

PROJECTS

- AI Chatbot using Python and Machine Learning.
- AWS EC2 Website Hosting using Apache Server.
- DevOps CI/CD Pipeline using Docker and Jenkins.
- Responsive Portfolio Website with animated UI.

CERTIFICATIONS

- AWS Cloud Fundamentals (Learning)
- DevOps & Linux Administration Practice
- Python Programming and Automation

OTHER

Strengths: Quick Learner, Leadership, Teamwork, Communication Skills

Career Goal: Become a successful AI Engineer and DevOps Cloud Architect.

Interests: Cloud Infrastructure, AI Applications, Modern Web Development
